

CONTENTS

1	INTRODUCTION	1
1.1	PREAMBLE	1
1.2	PROBLEMS BEING FACED BY URBAN LOCAL BODIES	3
1.3	NEED FOR A MANUAL ON SOLID WASTE MANAGEMENT	3
1.4	CONSTITUTION OF THE EXPERT COMMITTEE & METHODOLOGY ADOPTED	4
2.	PRINCIPLES OF MUNICIPAL SOLID WASTE MANAGEMENT	5
2.1	INTRODUCTION	5
2.1.1	Solid Waste Generation	5
2.1.2	Environmental Impact of Solid Waste Disposal on Land	5
2.1.3	Objective of Solid Waste Management	9
2.2	PRINCIPLES OF MUNICIPAL SOLID WASTE MANAGEMENT	9
2.2.1	Waste Reduction	9
2.2.2	Effective Management of Waste	11
2.2.3	Functional Elements of Municipal Solid Waste Management	13
2.3	HIERARCHY OF WASTE MANAGEMENT OPTIONS	16
2.4	WASTE MINIMISATION	17
2.5	RESOURCE RECOVERY THROUGH MATERIAL RECYCLING	19
2.5.1	Sorting at Source	19
2.5.2	Centralised Sorting	20
2.5.3	Sorting Prior to Waste Processing or Landfilling	20
2.6	RESOURCE RECOVERY THROUGH WASTE PROCESSING	20
2.6.1	Biological Processes	21
2.6.2	Thermal Processes	21
2.6.3	Other Processes	22
2.7	WASTE TRANSFORMATION (WITHOUT RESOURCE RECOVERY) PRIOR TO DISPOSAL	22
2.7.1	Mechanical Transformation	22
2.7.2	Thermal Transformation	23

2.7.3	Other Methods	23
2.8	DISPOSAL ON LAND	23
2.9	COMPONENTS OF MUNICIPAL SOLID WASTE MANAGEMENT SYSTEM	23
2.10	LINKAGES BETWEEN MUNICIPAL SOLID WASTE MANAGEMENT SYSTEM AND OTHER TYPES OF WASTES GENERATED IN AN URBAN CENTRE	26
2.11	MATERIALS FLOW CHART FOR MUNICIPAL SOLID WASTE MANAGEMENT SYSTEM (1000 t.p.d. WASTE GENERATION)	29
3.	COMPOSITION AND QUANTITY OF SOLID WASTE	32
3.1	INTRODUCTION	32
3.1.1	Terminology and Classification	32
3.1.2	Variations in Composition and Characteristics	32
3.2	DEFINITIONS AND CLASSIFICATION OF SOLID WASTES	33
3.2.1	Definitions	33
3.2.2	Classification	36
3.3	COMPOSITION, CHARACTERISTICS AND QUANTITIES	38
3.3.1	Need for Analysis	38
3.3.2	Field Investigations	38
3.3.3	Number of Samples to be collected	40
3.3.4	Collection of Samples of Solid Waste	43
3.3.5	Composition and Characteristics	43
3.3.5.1	<i>Characteristics of Municipal Solid Waste in Indian Urban Centres</i>	45
3.3.6	Quantities	47
3.3.6.1	<i>Per Capita Quantity of Municipal Solid Waste in Indian Urban Centres</i>	47
3.3.6.2	<i>Estimation of Future Per Capita Waste Quantity</i>	48
3.3.6.3	<i>Relation between Gross National Product and Municipal Solid Waste Generation</i>	48
3.3.6.4	<i>Rate of Increase Based on Experience in Other Cities</i>	50
3.3.6.5	<i>Seasonal Variations</i>	50
3.3.7	Physical Characteristics	50
3.3.7.1	<i>Density</i>	50

3.3.7.2	<i>Moisture Content</i>	52
3.3.7.3	<i>Size of Waste Constituents</i>	52
3.3.7.4	<i>Calorific Value</i>	52
3.3.8	Chemical Characteristics	53
3.3.8.1	<i>Classification</i>	53
3.4	CONCLUSION	55
4.	CONSTRUCTION AND DEMOLITION WASTE	56
4.1	INTRODUCTION	56
4.2	CHARACTERISTICS	57
4.3	STORAGE OF CONSTRUCTION AND DEMOLITION WASTE	58
4.4	COLLECTION AND TRANSPORTATION	59
4.5	RECYCLING AND REUSE	59
4.6	DISPOSAL	60
4.7	PLANNING AND MANAGEMENT ASPECTS	60
4.8	INSTITUTIONAL AND REGULATORY ASPECTS	61
5.	SLAUGHTER HOUSE WASTE AND DEAD ANIMALS	63
5.1	INTRODUCTION	63
5.2	MAGNITUDE OF THE PROBLEM	63
5.3	CLASSIFICATION	66
5.4	OPERATIONS DURING SLAUGHTERING OF ANIMALS	66
5.4.1	Present Scenario	66
5.4.1.1	<i>Slaughtering</i>	66
5.4.1.2	<i>Bleeding</i>	67
5.4.1.3	<i>Dressing</i>	67
5.4.1.4	<i>Evisceration</i>	67
5.5	MEASURES PROPOSED TO IMPROVE THE SLAUGHTER HOUSE WASTE MANAGEMENT	67
5.5.1	Liquid Waste/Effluent	67
5.5.2	Collection of Blood	68
5.5.3	Improved Method of Dressing	68
5.5.4	Evisceration	68
5.5.5	Safe Disposal of Waste Products	68
5.5.6	Odours Control	69
5.5.7	Modernization of Slaughter House	69

5.5.8	Curbing Activities of Illegal Slaughtering of Animals	69
5.5.9	Provision of Dry Rendering Plants	70
5.6	CONCLUSION	70
6.	INDUSTRIAL SOLID WASTE	71
6.1	INTRODUCTION	71
6.2	THE PROBLEMS	72
6.3	INDUSTRIAL SOLID WASTE	72
6.4	DESCRIPTION OF IMPORTANT INDUSTRIAL SOLID WASTE	73
6.4.1	Coal Ash	73
6.4.2	Integrated Iron & Steel Plant Slag	74
6.4.3	Phosphogypsum	74
6.4.4	Red Mud	74
6.4.5	Lime Mud	75
6.4.6	Waste Sludge and Residues	75
6.4.7	Potential Reuse of Solid Wastes	75
6.5	WASTE MANAGEMENT APPROACH	75
6.5.1	Prevention – A Waste Minimization Approach	75
6.5.2	Waste Management at Source	80
6.5.3	Cutting down waste generation at Source	80
6.5.4	Recycle and Reuse of wastes generated	80
6.5.5	Waste Minimization	80
6.5.6	Treatment and disposal of residual waste	81
6.6	AREA OF APPLICATION OF SOME IMPORTANT INDUSTRIAL WASTES	81
6.7	CURRENT PRACTICE OF INDUSTRIAL SOLID WASTE MANAGEMENT	83
6.7.1	Collection and Transport of Wastes	83
6.7.2	Storage and Transportation	83
6.7.3	Disposal of Industrial Solid Waste	84
6.8	HEALTH CONSEQUENCES OF POOR INDUSTRIAL WASTE DISPOSAL	84
6.9	COLLECTION, STORAGE, TREATMENT AND DISPOSAL OF WASTES	86
6.9.1	Waste Segregation	86

6.9.2	Collection, Storage and Transport	86
6.9.3	Combined Treatment Facilities	87
6.9.4	Disposal Methods	87
6.9.4.1	<i>Landfill</i>	92
6.9.4.2	<i>Incineration</i>	100
6.9.4.3	<i>Manifest System</i>	103
6.9.4.4	<i>Post Treatment</i>	103
6.9.4.5	<i>Back-Transport</i>	105
6.9.5	Monitoring	105
6.9.6	Record Keeping	110
6.10	LEGISLATION FOR MANAGEMENT OF HAZARDOUS WASTE AND CATEGORISATION OF HAZARDOUS WASTE	113
6.11	HANDLING OF HAZARDOUS CHEMICALS	113
6.12	INDUSTRIAL LOCATION	114
6.13	MANAGEMENT OF INDUSTRIAL SOLID CO-ORDINATION (SPCBs AND LOCAL BODIES)	114
7.	BIOMEDICAL WASTE	116
7.1	INTRODUCTION	116
7.1.1	Linkage of Bio-medical Waste Management with Municipal waste management	118
7.2	ASSESSMENT OF CURRENT SITUATION	119
7.2.1	Waste Generation	119
7.2.1.1	<i>Health care Establishments</i>	119
7.2.1.2	<i>Whole town/city</i>	121
7.2.2	Current Practices	122
7.2.3	Allocation of Responsibilities	123
7.3	BASIC ISSUES	123
7.3.1	Management Issues of Bio-medical Waste Management	123
7.3.2	Current Issues in Management of Health Care Waste	123
7.4	LEGAL ASPECTS AND ENVIRONMENTAL CONCERN	124
7.4.1	Biomedical Waste (Management and Handling) Rules, 1998	124
7.4.2	Environmental Concern	125
7.5	WASTE IDENTIFICATION AND WASTE CONTROL PROGRAMME FOR THE HEALTH CARE ESTABLISHMENTS	126

7.5.1	Identification of various components of the waste generated	126
7.5.2	An exercise in Waste Control Programme	126
7.6	WASTE STORAGE	127
7.6.1	Recommended labelling and Colour coding	127
7.6.2	Segregated Storage in separate containers(at the point of generation)	128
7.6.3	Certification	128
7.6.4	Common/Intermediate Storage Area	129
7.6.5	Parking lot for collection vehicles	129
7.7	HANDLING AND TRANSPORTATION	129
7.7.1	Collection of Wastes inside the hospital/Health care Establishment	129
7.7.2	Transportation of Segregated Waste inside the premises	130
7.7.3	Collection and Transportation of waste for small units	130
7.7.4	Transportation of Waste Outside	131
7.8	WASTE TREATMENT AND DISPOSAL : THE RULES AND THE AVAILABLE OPTIONS	131
7.8.1	Incineration	132
7.8.2	Autoclave Treatment	132
7.8.3	Hydroclave Treatment	133
7.8.4	Microwave Treatment	133
7.8.5	Chemical Disinfection	134
7.8.6	Sanitary and Secured Landfilling	134
7.8.7	General Waste	135
7.9	COMMON TREATMENT/DISPOSAL FACILITY	136
7.9.1	Establishment of the facility	136
7.9.2	Tie up of health care set ups	137
7.9.3	Private Sector Participation	138
7.10	OPERATION AND MAINTENANCE	138
7.11	OCCUPATIONAL HAZARDS AND SAFETY MEASURES	138
7.11.1	Occupational Hazards	139
7.11.2	Safety measures for the medical and para-medical staff	139
7.11.3	Safety measures for the cleaning and transportation staff	139
7.12	FINANCIAL ASPECTS	140
7.13	TRAINING AND MOTIVATION	140
7.13.1	Training modules for different level of staff	141

7.13.2	Incentives and Motivation	144
7.13.3	Awareness Generation	144
7.14	PLANNING ELEMENTS	144
7.14.1	Planning Inside the Health Care Establishment Premises	145
7.14.2	Planning Inside the Health Care Establishment	147
7.14.3	Relation to Overall Town Planning	147
7.14.4	Examples	148
7.15	MANAGEMENT ASPECTS	150
7.15.1	Organisational set up	151
7.15.2	Administrative and Managerial Aspects	151
7.16	ANIMAL WASTE	153
8.	SORTING AND MATERIAL RECOVERY	154
8.1	INTRODUCTION	154
8.2	OBJECTIVES OF SORTING	154
8.3	STAGES OF SORTING	154
8.4	SORTED WASTE STREAMS	155
8.5	SORTING OPERATIONS	155
8.6	CURRENT STATUS	156
8.6.1	Primary and Secondary / Tertiary Sorting	158
8.6.2	Primary Sorting At Source	158
8.6.3	Primary Sorting At the Community Bin (Municipal Bin)	158
8.6.4	Primary Sorting At Landfill	159
8.6.5	Secondary / Tertiary Sorting	159
8.6.6	Occupational Health	159
8.7	TOXICITY RELATED HAZARDS	160
8.7.1	Hazardous Substance Containers	161
8.7.2	Household Batteries and Other Toxic Wastes	161
8.7.3	Infectious Wastes	161
8.8	NON-RECYCLABLE PACKAGING	161
8.9	PROBLEMS AND DESIRABLE CHANGE	162
8.9.1	Long-Term Desirable Change	162
8.10	GUIDELINES FOR SORTING FOR MATERIALS RECOVERY	164
8.10.1	General	164
8.10.2	At the Source	165

8.10.3	At the Community Bin (Municipal Bin)/Waste Storage Depot/ Transfer Station	165
8.10.4	Intermediate Sorting at Central Sorting Facility	168
8.10.5	Sorting at Waste Processing Site	168
8.10.6	Sorting Prior to Landfilling	169
9.	STORAGE OF WASTE AT SOURCE	170
9.1	INTRODUCTION	170
9.2	PRESENT SCENARIO	170
9.2.1	No Storage at Source – Waste Deposited on the Streets	170
9.2.2	Storage of waste, wherever practised, does not synchronize with primary collection system	171
9.3	MEASURES TO IMPROVE THE SYSTEM	171
9.3.1	Types of Wastes to be put in the bin meant for food waste and Bio-degradable Waste	171
9.3.2	Types of Recyclable and Other Non-Biodegradable Waste to be kept separately	172
9.3.3	List of Some Domestic Hazardous Waste	172
9.4	STEPS TO BE TAKEN BY URBAN LOCAL BODIES	173
9.4.1	For Storing Household Waste	173
9.4.2	For Storing Waste from Shops/Offices/Institutions/Workshops etc.	176
9.4.3	For Storing Waste from Hotels and Restaurants	177
9.4.4	For Storing Vegetable/Fruit Markets Waste	178
9.4.5	Meat and Fish Markets	179
9.4.6	Street Food Vendors	179
9.4.7	Marriage Halls/Kalyan Mandaps/Community Halls etc.	179
9.4.8	Hospitals/Nursing Homes/Pathological Laboratories/ Health are Centres/Establishments etc.	179
9.4.9	Construction & Demolition Wastes	180
9.4.10	Garden Waste	181
9.5	STORAGE OF RECYCLABLE WASTE	182
9.6	MEASURES TO BE TAKEN BY THE LOCAL BODIES TOWARDS SEGREGATION OF RECYCLABLE WASTE	182
9.7	PROVISION OF LITTER BINS ON THE STREETS, PUBLIC PLACES ETC.	183

9.8	PROVISION OF SPECIAL CONTAINERS FOR STORAGE OF DOMESTIC HAZARDOUS AND TOXIC WASTES	184
10.	PRIMARY COLLECTION OF WASTE	187
10.1	INTRODUCTION	187
10.2	PRESENT SCENARIO	187
10.3	MEASURES NECESSARY TO IMPROVE THE SERVICE	187
10.4	STEPS TO BE TAKEN	188
10.5	ARRANGEMENTS TO BE MADE FOR PRIMARY COLLECTION	188
10.6	TOOLS & EQUIPMENT	190
10.6.1	Hand Carts	190
10.6.2	Tricycles	191
10.6.3	Community Bin Carrier	192
10.7	METHODS OF PRIMARY COLLECTION OF WASTE	192
10.7.1	Door step collection through containerized handcarts	192
10.7.2	Role of Sweeper	193
10.7.3	Collection through motorised vehicles	193
10.7.4	Primary Collection of Waste from Societies/Complexes	193
10.7.5	Collection of Waste from Slums	194
10.7.6	Collection at the door in posh residential areas	194
10.7.7	Collection of duly segregated recyclable/non-bio-degradable waste from Households	194
10.8	ENCOURAGEMENT TO NGO'S/PRIVATE SECTOR	195
10.9	COLLECTION OF WASTE FROM SHOPS AND ESTABLISHMENTS	196
10.10	COLLECTION OF BIO-MEDICAL WASTE	197
10.11	COLLECTION OF HOTEL AND RESTAURANT WASTE	197
10.12	VEGETABLE, FRUIT, MEAT AND FISH MARKETS WASTE	197
10.13	COLLECTION OF GARDEN WASTE	198
10.14	COLLECTION OF WASTE FROM MARRIAGE HALLS/KALYAN MANDAPS/COMMUNITY HALLS ETC.	198
10.15	COLLECTION OF CONSTRUCTION AND DEMOLITION WASTE	198
10.16	DAIRY AND CATTLE-SHED WASTE	199

10.17	COLLECTION OF DOMESTIC HAZARDOUS & TOXIC WASTE	199
11.	STREET CLEANSING	200
11.1	INTRODUCTION	200
11.2	SOURCES	200
11.2.1	Natural Wastes	201
11.2.2	Road Traffic Wastes	201
11.2.3	Behavioural Wastes	201
11.3	MANUAL CLEANSING OF STREET AND PUBLIC PLACES	201
11.3.1	Frequency of Street Cleansing	202
11.3.1.1	<i>Cleansing of Streets on a daily basis including Sundays & Public Holidays</i>	202
11.4	CLASSIFICATION OF STREETS	204
11.4.1	Sweeping Methods	205
11.4.2	Work-norms for Street Sweepers	205
11.4.3	Working Hours	206
11.5	EQUIPMENT USED FOR STREET SWEEPING	206
11.5.1	Brooms	206
11.5.2	Shovels	207
11.5.3	Container for Transfer of Sweepings	209
11.5.4	Vehicles and Transfer Facilities	209
11.5.5	Hand-Carts/Tricycles	211
11.5.5.1	<i>Specifications for Polyethylene Container to be used in the Hand cart</i>	214
11.5.5.2	<i>Material of Manufacture</i>	214
11.6	CLEANSING OF SURFACE DRAINS	214
11.7	REMOVAL OF SILT FROM UNDERGROUND DRAINS/ MANHOLES	216
11.8	MECHANICAL SWEEPING	216
11.9	INSTITUTIONAL ARRANGEMENT FOR MANUAL SWEEPERS	217
11.10	LEGISLATION	218
12.	WASTE STORAGE DEPOTS	219
12.1	INTRODUCTION	219
12.2	THE PRESENT SCENARIO	219

12.3	MEASURES TO BE TAKEN TO IMPROVE THE SITUATION	220
12.4	STEPS TO BE TAKEN BY THE LOCAL BODY	222
12.5	OPTIONS	222
12.6	CRITERIA FOR PLACING LARGE SIZE CONTAINERS AT THE WASTE STORAGE DEPOTS	226
12.7	MAINTENANCE OF WASTE STORAGE DEPOTS/ CONTAINERS	227
13.	TRANSPORTATION OF WASTE	228
13.1	INTRODUCTION	228
13.2	THE PRESENT SCENARIO	228
13.2.1	Inefficient and unscientific manual loading of waste	228
13.2.2	Irregular Transportation	230
13.2.3	Underutilization of Fleet of Vehicles	231
13.2.4	Open Trucks Cause Nuisance	231
13.2.5	Non-Routing of Vehicles	232
13.2.6	Transportation of Waste from Hotels/Restaurants/Hospitals/ Construction Site etc.	232
13.3	MEASURES TO BE TAKEN TO IMPROVE THE SYSTEM	233
13.4	STEPS TO BE TAKEN TO MEET THE ABOVE OBJECTIVES	233
13.4.1	Domestic/Trade/Institutional Waste	233
13.4.2	Routing of Vehicles	234
13.4.3	Use of Vehicles in Two Shifts	234
13.4.4	Type of Vehicles to be used	234
13.4.5	Bio-Medical Waste from Hospitals/Nursing Homes/Health Care Establishments etc.	237
13.4.6	Transportation of Waste from Hotels & Restaurants	237
13.4.7	Transportation of Construction Waste and Debris	238
13.4.8	Transportation of Waste from Narrow Lanes	239
13.5	SETTING UP OF TRANSFER STATION	239
13.6	LIFTING OF WASTE FROM THE TRANSFER STATION	239
13.7	WORKSHOP FACILITY FOR VEHICLE MAINTENANCE	239
13.8	FLEET OF VEHICLES TO BE MAINTAINED	241
13.9	PARKING OF WORKSHOP VEHICLES	242

14.	COMPOSTING	243
14.1	INTRODUCTION	243
14.2	PRINCIPLES OF COMPOSTING – MANUAL AND MECHANISED METHODS	243
14.3	INDORE & BANGALORE METHODS OF COMPOSTING	244
14.3.1	Bangalore Method	244
14.3.2	Indore Method	244
14.3.3	Comparison of the Methods	244
14.3.4	Windrow Composting	245
14.4	FACTORS AFFECTING THE COMPOSTING PROCESS	246
14.4.1	Organisms	246
14.4.2	Use of Cultures	247
14.4.3	Moisture	247
14.4.4	Temperature	247
14.4.5	C/N Ratio	248
14.4.6	Aeration	250
14.4.7	Addition of sewage and sewage sludge	250
14.5	CONTROL OF COMPOSTING PROCESS	251
14.5.1	Properties of Compost	252
14.6	MECHANICAL COMPOSTING	253
14.6.1	Unit Processes	253
14.6.2	Experience in India	257
14.6.3	Composting plants for Indian Municipal Solid Waste	258
	14.6.3.1 <i>Assessment & Development of Market</i>	258
	14.6.3.2 <i>Selection of Site</i>	258
	14.6.3.3 <i>Pilot Studies</i>	258
	14.6.3.4 <i>Flowsheet</i>	259
	14.6.3.5 <i>Environmental Control</i>	260
15.	ENERGY RECOVERY FROM MUNICIPAL SOLID WASTE	262
15.1	INTRODUCTION	262
15.2	BASIC TECHNIQUES OF ENERGY RECOVERY FROM MSW	262
15.2.1.	Parameters affecting Energy Recovery	263

15.2.2.	Assessment of Energy Recovery Potential	265
15.3	TECHNOLOGICAL OPTIONS	266
15.3.1	Anaerobic Digestion(AD)	266
	15.3.1.1 <i>Main Steps in Anaerobic Treatment of MSW</i>	268
	15.3.1.2 <i>Different Designs and Configurations of AD Systems</i>	268
15.3.2	Landfill Gas Recovery	270
	15.3.2.1 <i>Selection of Existing Landfill Sites for Gas Recovery</i>	276
	15.3.2.2 <i>Assessment of Gas Production Potential</i>	276
15.3.3	Incineration	279

24.1	INTRODUCTION	504
24.2	PRESENT SCENARIO	504
24.3	PROPOSED LEGAL PROVISIONS	506
24.3.1	Prohibition against littering the street or deposition of solid waste on the streets, open defecation etc.	506
24.3.2	Duty of occupiers of premises to store solid waste at source of generation	506
24.3.3	Duty of occupier not to mix recyclable/non-bio-degradable waste and domestic hazardous waste with food waste etc.	506
24.3.4	Duty of Societies/Associations/Management of commercial complexes to clean their premises and to provide community bins	506
24.3.5	Community Bins to be kept in good condition	507
24.3.6	Duty of occupiers to deposit solid waste in community bins	507
24.3.7	Duty of local body to provide and maintain “Waste Storage Depots”	507
24.3.8	Duty of occupier of households/shops/establishment to hand over the recyclable material/non-bio-degradable waste to the waste collectors/waste purchasers/recyclers.	507
24.3.9	Duty of occupier of households, shops and establishments to deposit domestic hazardous/toxic waste in special bins	508

24.3.10	Duty of local bodies to collect waste from community bins and to deposit it at Waste Storage Depots for onward transport	508
24.3.11	Duty of local bodies to clean all public streets, open public spaces and slum areas	508
24.3.12	Duty of local body to transport the waste stored at the waste storage depots regularly.	508 508
24.3.13	Duty of local body to arrange for processing of food/ bio-degradable waste through appropriate technology and disposal of Rejects	508
24.3.14	Prohibition against deposition of building rubbish	508
24.3.15	Prohibition on disposal of carcasses etc.	509
24.3.16	Punishment for littering on streets	509
24.4	SOME EXAMPLES OF ENFORCEMENT WHICH HAVE GIVEN SALUTARY EFFECT	509

26.6	PLAN OUTLINE	526

ANNEXURES

Annexure No.

A	Conversion Factors	533
B	List of Indian Standards relating to Solid Waste Management	536
1.1	Municipal Wastes (Management & Handling Rules, 1999)	538
5.1	Environment (Protection) Act, 1986	558
5.2	Guidelines for Financial Assistance for improvement of existing Slaughter Houses and establishment of Carcass & By-Product Utilisation Centres	584
5.2A	Objectives for improvement of Slaughter Houses and Carcass & By-Product Utilisation Centres	587
5.2B	Pattern of Funding for improvement of Slaughter Houses	588
5.2C	Pattern of Funding for Carcass & By-Product Utilisation Centre	592
5.2D	Proforma for Submitting the Proposals for Slaughter Houses & Carcass Utilisation Centres	594
5.3	Draft Guidelines for Sanitation in Slaughter Houses	597
6.1	List of Processes Generating Hazardous Wastes	605
6.2	Categories of Industries to be restricted for their operation in Non-Conforming areas	611
7.1	Solid Wastes – Hospitals – Guidelines for Management	613
7.2	Bio-Medical Waste (Management & Handling) Rules, 1998	618
7.3	List of States where Prescribed Authority has been set up for supervising the Implementation of the Bio-Medical Waste (Management & Handling) Rules	629
7.4	Comparison of Treatment Technologies for “Bio-Medical Waste”	630
7.5	Schematic of pit for deep burial of Cate Goryi-Bio-Medical Waste (based on Bio-Medical Waste Management Handling Rules)	632
12.1	The Specification for Construction of Waste Storage Depot	633
12.2	General Specification of 7 cu.mt. capacity Garbage Containers to be handled by 7 cu.mt. D.P. units	634

13.1	Hydraulic Vehicle Inspection Schedule	639
13.2	Schedule of Maintenance of Trucks & Vehicles	644
13.3	Minimum equipment/tools required for workshop to Maintain a fleet of up to 50 Vehicles	653
15.1	Waste to Energy Case Studies	654
15.2	Ministry of Non-Conventional Energy Sources – Salient Features of Incentives given	660
17.1	Estimation of Landfill Capacity, Landfill Height, Landfill Area	672
17.2	Typical Example (Preliminary Design)	675
17.3	Estimation of Landfill Cost based on Preliminary Design	687
19.1	Typical Organizational Chart for a activity of 30 lacs Population	691
19.2	Brief Course Content for Training to various Levels of Staff/Officers.	694
20.1	Tamil Nadu Contract Labour (Regulation & Abolition) Rules, 1975 – Government Order for abolition of Contract Labour System in SWM – Exemption to Corporation of Chennai	696
21.1(A)	Salient Features of Ministry of Agriculture Guidelines for Recovery of Compost from Urban/Municipal Waste	699
21.1(B)	HUDCO’s Financing	700
21.1(C)	An Example : Financing Hospital Waste Management Schemes by HUDCO	702
22.1	Impact Identification Network for Collection System	704
22.2	Impact Identification Network for Disposal System	705
23.1(a)	Daily Monitoring on Collection of Waste from Waste Storage Depot	706
23.1(b)	Primary Collection Operation Summary Table	707
23.2(a)	Monitoring of Transfer Stations Operations (Entry Record Sheet)	708
23.2(b)	Record of Transfer of Waste from Transfer Stations to Disposal Site	709
23.3(a)	Vehicle Movement Monitoring	710
23.3(b)	Vehicle Utility Monitoring	711
23.3(c)	Monitoring Fuel Consumption	712
23.3(d)	Drivers Attendance Monitoring	713
23.3(e)	Vehicle Repair Report	714
23.3(f)	Monitoring Cost of Operations	715
23.4(a)	Daily Waste Disposal Record Sheet for Zone	716
23.4(b)	Monitoring Waste Disposal from all Zones/Divisions	717

23.4(c)	Monthly Record Sheet of Waste Disposal	718
23.4(d)	Equipment Performance Report	719
23.4(e)	Carbon Utility Report	720
23.4(f)	Operating Cost Summary Table	721
23.4(g)	Disposal Cost Summary	722
23.4(h)	Waste Processing Report	723
23.5(a)	Project Information Report	724
23.5(b)	Project Monitoring Report (Name of the Project/Value of the Project)	725
23.6(a)	Financial and Economical Information – Revenue Receipts	726
23.6(b)	Revenue Expenditure	727
23.6(c)	Capital Receipts	728
23.7(a)	Monitoring of Court Cases	729
23.7(b)	Enforcement Measures	730
25.1	Policy Orders issued by State Govts to promote Waste-to-Energy Projects	731
26.1	Population Forecast Methods	744
26.2	Estimation of Future Population (Example)	747
